Subject: Fwd: UDOGM Mining Applications S/023/089, E/019/054, E/037/104

Here's Matt's responses for:

S/023/089 - Drumbeat #1,2,3,4 (06-0162) ✓

E/019/054 - BP Lode Mining Claims (06-0166)

E/037/104 - Animas - La Plata Project (06-0134)

He's going to e-mail his responses. Let me know if this doesn't work.

Janice

Re: Cases 06-134, 06-162, 06-166

I've reviewed these applications per the MOA between DOGM and us with regard to the proposed developments and the potential for location of eligible sites within the project area. In all three cases the projects appear from map data to be in undeveloped areas, as best as I can tell from the location data in the applications little if any of the proposed development areas have been previously surveyed for cultural resources, and the general location of the projects along with data from surrounding areas suggests that there is a possibility that eligible sites may be in the application areas and could be impacted by the projects, particularly in the cases where ground disturbing activities are involved.

I recommend that DOGM consider requesting a cultural resources inventory of the proposed project areas. Per the MOA, the decision regarding whether or not to implement my recommendations rests with DOGM.

Thanks for the opportunity to review.

Matt
